

Five Prime Therapeutics Announces Oral Presentation on FPA150 at the 2018 AACR Annual Meeting

March 27, 2018

SOUTH SAN FRANCISCO, Calif.--(BUSINESS WIRE)--Mar. 27, 2018-- Five Prime Therapeutics, Inc. (Nasdaq:FPRX), a clinical-stage biotechnology company focused on discovering and developing innovative immuno-oncology protein therapeutics, today announced that Charles D. Kaplan, Director of Immuno-Oncology Research at Five Prime, has been invited to give an oral presentation at the 2018 American Association for Cancer Research (AACR) Annual Meeting, being held April 14 - 18, 2018, in Chicago.

Presentation Title: FPA150: A recombinant, afucosylated, fully human IgG1 monoclonal antibody for the treatment of malignancies that express high levels of B7-H4

Presenter Name: Charles D. Kaplan

Session Type: Drug Development Track - Special Session

Session Title: New Drugs on the Horizon 1

Session Start Time: April 15, 2018 1:00 PM

Location: Room S103 - McCormick Place South (Level 1)

About FPA150

FPA150 is a novel, fully human, afucosylated monoclonal antibody targeting B7-H4. B7-H4 expression is observed in multiple solid tumors, including breast, bladder and gynecologic cancers, and has been documented to correlate with poor prognosis. FPA150 is designed with a dual mechanism of action: blocking the T cell checkpoint activity of B7-H4 as well as delivering potent antibody-dependent cell-mediated cytotoxicity against tumor cells expressing B7-H4. Five Prime anticipates initiating Phase 1 development of FPA150 during the first half of 2018.

About Five Prime

Five Prime Therapeutics, Inc. discovers and develops innovative therapeutics to improve the lives of patients with serious diseases. Five Prime's comprehensive discovery platform, which encompasses virtually every medically relevant extracellular protein, positions it to explore pathways in cancer, inflammation and their intersection in immuno-oncology, an area with significant therapeutic potential and the focus of the company's R&D activities. Five Prime has entered into strategic collaborations with leading global pharmaceutical companies and has promising product candidates in clinical and late preclinical development. Cautionary Note on Forward-looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as "may," "will," "expect," "plan," "anticipate," "estimate," "intend" and similar expressions (as well as other words or expressions referencing future events, conditions or circumstances) are intended to identify forward-looking statements. These forward-looking statements are based on Five Prime's expectations and assumptions as of the date of this press release. Each of these forward-looking statements involves risks and uncertainties. Actual results may differ materially from these forward-looking statements. Forward-looking statements contained in this press release include statements about Five Prime's potential receipt of milestone payments and royalties. Many factors may cause differences between current expectations and actual results, including unexpected safety or efficacy data observed during non-clinical or clinical studies, clinical site activation rates or clinical trial enrollment rates that are lower than expected and changes in expected or existing competition. Other factors that may cause actual results to differ from those expressed or implied in the forward-looking statements in this press release are discussed in Five Prime's filings with the U.S. Securities and Exchange Commission, including the "Risk Factors" contained therein. Except as required by law, Five Prime assumes no obligation to update any forward-looking statements contained herein to reflect any change in expectations, even as new information becomes available.
